Cautions for battery disposal

Please follow the regulations of corresponding area for the disposal of used batteries.

■ Cautions

Please read it carefully to ensure correct usage and user's safety through understanding of the product.

- ① Use only components provided or approved by BT Inc.
- ② Do not use the product for other purposes described in the manual.
- ③ If you disassemble or modify the product without any permission by BT Inc, you cannot get the warranty. Also, making imitated or altered products for commercial purposes are prohibited by law.
- ④ In case of burning smell or overheating, please contact us after removing battery.
- ⑤ Keep the product away from water and moisture.
- ⑥ Do not use the product near strong magnetic fields or high voltage power lines.
- ⑦ The product may malfunction under the extreme weather conditions.
(Operation temperature : 0°C~40°C (32°F~104°F), Storage temperature : -10°C~50°C (14°F~122°F))
- ⑧ Do not keep the product near hot or cold environments as possible. Deterioration of product or internal damage may occur by the extreme weather conditions
- ⑨ Never clean the product with chemicals such as solvent, benzene or thinner as these may cause fire ignition or the surface deterioration.
- ⑩ BT Inc. can change or adjust the product specification without any notice in order to improve the product.

Components

Female external genitalia model

Adult buttocks model

Vaginal opening

Urinary meatus

Internal genitalia module

Connector for supplying artificial urinary

Power switch

Battery cover

Extension legs
(Left/Right)

Urinary supply bag

* Etc. – Storage bag, User manual

Installation

<Install female catheterization training model>

<Install extension legs>

Installation

<Install urinary supply bag>

<Install battery>

Turn the switch on after inserting a battery inside of the internal genitalia module.

* Please use a standard 6LR61 battery.

Functions

<Indwelling catheterization>

※ When practicing urination, be sure to apply enough lubricant to the catheter.

Functions

<Nelaton catheterization>

<Alarm sound when a catheter inserted into vagina>

- ① Alarm alerts when a catheter inserted into vagina, not urethral meatus.
- ② Alarm stops when the inserted catheter is removed from vagina.
- ③ The alarm can be turned on/off with a power switch.

Maintenance

Close the roller clamp of urinary supply bag and remove the urinary supply bag after making the manikin stand.

Turn the power off, take the internal genitalia module out with fingers and flush the left urinary out.

Wash the external genitalia model and wipe the moisture to make it dry for storage.
